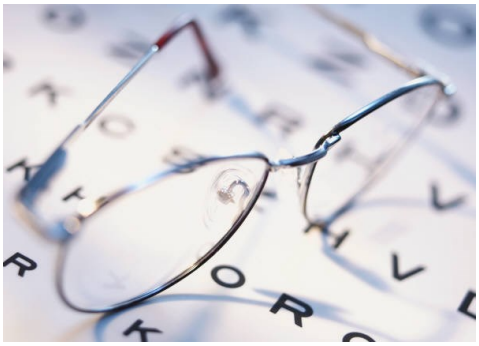
WISCONSIN OPTOMETRIC ASSOCIATION

2016 WOA Spring Seminar Doctor Registration Materials

April 13-14, 2016

Hyatt Regency
Green Bay, Wisconsin



February 1, 2016

Who: Wisconsin Optometrists

What: Wisconsin Optometric Association 2016 Spring Seminar

When: April 13-14, 2016

Where: Hyatt Regency, Green Bay, WI

On behalf of the WOA Education Committee, Dr. Holly Fisher would like to invite you to attend the 2016 WOA Spring Seminar in Green Bay, WI. The education will begin at 8:00 a.m. on Wednesday, April 13th and will run until 3:00 p.m. on Thursday, April 14th. Please make sure to thank our industry supporters in the exhibit hall for their generosity. In regards to the exhibit hall, we have a full house this year, with over 45 companies attending. These companies are excited to come to Green Bay to show their support of our profession as well as demonstrate their products and new ideas.

Speakers:

- ***Robert Prouty, O.D., F.A.A.O.,* Specialty EyeCare, Parker, Colorado**
- ***William Jones, O.D.,* New Mexico Eye Care, Albuquerque, New Mexico**
- ***Linda Dejmek, O.D., FCOVD,* Appleton Eye Clinic, Appleton, WI and AB See Vision Therapy Center, Menasha, WI**

Education Approval:

14 hours offered, Wisconsin Optometry Examining Board-approved, comprised of:

2 hours neuro optometry (NO) 2 hours systemic disease (SD)
3 hours glaucoma (GL) 6 hours posterior segment (PS)
1 hour perioperative management of ophthalmic surgery (PO)

- 12 hours are COPE-approval pending.
- The two hours that are not COPE credits will be submitted to Michigan and Minnesota for approval; MI and MN will automatically accept COPE-approved courses.
- Indiana and Ohio automatically accept all CE provided by WOA.

Registration Information:

◊ Early Bird Registration Deadline: **March 14, 2016.**
◊ Regular Registration Deadline: **April 4, 2016.**
◊ If you are paying using a credit card, you are encouraged to register online at https://www.woa-eyes.org/event_registration?id=30.
◊ As you will see, there are two options for registration:
  1. Full Registration; select either one or two days (includes all education and meals), or
  2. Partial Registration; select classes and meals individually, and pay per class.
◊ There is a substantial registration discount for WOA members. If you are not currently a member of the WOA and would like to join, please contact Ms. Joleen Breunig at the WOA office by phone at 800-678-5357 or by email at joleen@woa-eyes.org for more information.

Hotel Information:

To make your sleeping room reservations, please contact the Hyatt Regency reservation department at 888-421-1442 prior to **March 25, 2016**, as the room block will be released on that date. After the block release date has passed, it is then up to the hotel's discretion whether or not they will choose to honor the contracted rate.

The contracted room rate is $119 per night for single or double occupancy, $139 for triple occupancy, and $159 for quadruple occupancy. Reservations can also be made through an online portal at https://resweb.passkey.com/go/gwooa.

Linda Dejmek, O.D., FCOVD

Dr. Linda Dejmek completed her undergraduate work at the University of Wisconsin-Oshkosh and UW-Madison and graduated from the Indiana University School of Optometry. She is Board Certified as a Fellow of the College of Optometrists in Vision Development (FCOVD).

Dr. Dejmek is the owner of Appleton Eye Clinic, a primary care practice located in Appleton, WI, and A B See Vision Therapy Center, a vision therapy practice specializing in children with learning disabilities as well as brain injury patients, located in Menasha, WI.

She has served on numerous boards in the field of optometry, including the Association of Regulatory Boards of Optometry (ARBO), serving two years as President; the Federation of Association of Regulatory Boards (FARB); the Wisconsin Optometry Examining Board (OEB) as Vice Chair; the Wisconsin Optometric Association (WOA); and the International Examination and Certification Board (IECB) of the College of Optometrists in Vision Development, serving as Examiner.

Dr. Dejmek was selected as the Wisconsin Optometric Association Optometrist of the Year in 1995 and was awarded the Zonta Award in Science and Technology. She was listed in *Who's Who in American Women* and was a medical illustrator for the textbook *System for Ophthalmic Dispensing* by Dr. Borish and Dr. Brooks.

William Jones, O.D.

Dr. William Jones is in private practice in Albuquerque, New Mexico. He is a member of the AOA, AAOpt, the Optometric Retina Society, and NAPO. He authored the textbook *Atlas of the Peripheral Ocular Fundus* and has also written over 50 articles in optometric and ophthalmologic journals. He has lectured extensively in the United States and abroad. Dr. Jones was the founding President of the Optometric Retina Society, established in 2003.

Robert Prouty, O.D., F.A.A.O.

Dr. Prouty graduated from Pacific University and completed his residency/fellowship training in "Hospital-Based Optometry and Geriatrics" at the American Lake V.A. Medical Center in Tacoma, Washington. He co-founded the first referral/co-management center (Omni Eye Specialists) in Denver after serving as a consultant at Fitzsimons Army Medical Center, Department of Surgery, and is now developing another co-management center at Specialty Eye Care (SEC) in Parker, Colorado.

Dr. Prouty is a member of the AOA and the COA and was selected as the COA's "Young Optometrist of the Year" in 1988, "Optometrist of the Year" in 2004, and was the 2007 recipient of COA's *Distinguished Service Award* in 2007.

Dr. Prouty is a Fellow in the American Academy of Optometry, is a founding member of the Optometric Glaucoma Society (OGS), and served on the OGS executive committee. He is also the founding and current president of the Colorado Optometric Glaucoma Society (COGS). He was the director of the University of Houston's "Residency in Ocular Disease" at Omni, and is the director of student education at SEC. Dr. Prouty has held positions at several universities as an adjunct professor and is a clinical professor at Rocky Vista University, College of Osteopathic Medicine. He is a recognized international lecturer and has published numerous articles in national and international publications.

Event Schedule

Wed 13

7:00 a.m. - 5:00 p.m.
Registration
KI Lobby West Counter

8:00 a.m. - 9:40 a.m.
"Lumps, Bumps and Lid Lesions"
Robert Prouty, O.D.
2 hours SD
COPE: 47629-SD (pending)
Meeting Room B1B2

One of the most challenging aspects of primary optometric care is identification and management of ocular surface lesions. Identification can be critical for the health and safety of the patient. The presentation will review ocular cancer lesions, ocular surface lesions, and identifying characteristics as well as the innovative diagnostic technique of in-office Impression Cytology.

9:40 a.m. - 10:30 a.m.
Break
Exhibit Hall
Exhibition Hall C

10:30 a.m. - 12:10 p.m.
"Pseudo-Accommodative IOL Post-Op Pearls"
Robert Prouty, O.D.
1 hour PO
COPE: 44488-PO (pending)
Meeting Room B1B2

This presentation will cover the nuances in Pseudo-Accommodative IOL post-operative management. These IOL lens types are unique in that they are dynamic and move within the eye. As such, subtle adjustments in post-op management may affect a successful outcome. Case examples will be covered.

AND

"Glaucoma Grand Rounds: What Was Done Wrong?"
Robert Prouty, O.D.
1 hour GL
COPE: 45911-GL (pending)
Meeting Room B1B2

This presentation is a grand rounds of various interesting glaucoma cases encountered in optometric primary care. All cases will be presented with management dilemmas and controversies in an interactive method with the audience.

12:10 p.m. - 1:10 p.m.
Lunch
Ballroom A1A2

1:10 p.m. - 2:50 p.m.
"Decisions in Glaucoma: When to Pull the Trigger"
Robert Prouty, O.D.
2 hours GL
COPE: 41665-GL (pending)
Meeting Room B1B2

Accurate diagnosis is essential in order to initiate timely glaucoma management and treatment. This course will explore the elements of the glaucoma evaluation and discuss the elements as to how they are being rethought or applied today. IOP measurement standards, the need for pachymetry, new Visual Field analysis software, optic nerve scanners, and how other exam elements are utilized to finalize a diagnosis will be covered.

2:50 p.m. - 3:45 p.m.
Break
Exhibit Hall
Exhibition Hall C

3:45 p.m. - 5:25 p.m.
"Neuro Optometry and Traumatic Brain Injury"
Linda Dejmek, O.D.
2 hours NO
Meeting Room B1B2

Spotting post-concussive visual symptoms in your patient population and helping them regain function is paramount in today's environment, given the public's knowledge regarding concussion. Techniques and suggestions will be addressed to aid you in screening these patients and helping them become more functional. Advanced cases and new techniques regarding their rehabilitation will be discussed. Several cases of both TBI and ABI will be reviewed, with patient videos to enhance your appreciation of the binocular abnormalities inherent in brain injury. Perceptual and binocular abnormalities will be explored in this patient population.

5:25 p.m. – 7:15 p.m.
Exhibit Hall Open House
Exhibition Hall C

Thurs 14

7:00 a.m. - 2:00 p.m.
Registration
KI Lobby West Counter

7:00 a.m. – 8:00 a.m.
Continental Breakfast for Doctors
Meeting Room B1B2

8:00 a.m. - 9:40 a.m.
"Diagnosis of Anomalies of the Optic Nerve"
William Jones, O.D.
2 hours PS
COPE: 40128-PS (pending)
Meeting Room B1B2

Event Schedule

Diagnosis of anomalies of the optic nerve head is important in the care of our patients. Even though most of the conditions to be discussed are stable and usually do not cause great harm to the patient's sight, proper management is required in following and counseling these patients. The course will begin with the anatomy of the optic nerve, which will include histological slides. Developmental anomalies and certain disease conditions will be discussed. Acquired anomalies to be presented are intrapapillary drusen, melanocytomas, myopic changes with tilted discs, and peripapillary crescents. Disease conditions to be covered are optic neuritis and papilledema. Many histopathological examples and visual field analysis studies as well as never seen before OCT images will be presented.

9:40 a.m. - 10:40 a.m.
Exhibit Hall Break
Final Session
Exhibition Hall C

10:40 a.m. - 12:15 p.m.
"What Does Vitreos Traction Do to the Posterior Pole of Our Patients?"
William Jones, O.D.
1 hour PS
COPE: 44649-PS (pending)
Meeting Room B1B2

For decades before OCT, the effects of vitreous traction on the posterior pole were relatively unknown. But now, with spectral domain OCT, these affects are revealed. The traction of the vitreous is much greater than ever expected. Posterior changes now known are torn superficial retinal surface, vitreoschisis, retinoschisis, peripapillary and disc traction, foveal depression distortion, epiretinal membrane formation, and partial and total macular hole formation. Many examples will be shown.

AND

"Video Streaming Retinal Breaks and Detachment"
William Jones, O.D.
1 hour PS
COPE: 47946-PS
Meeting Room B1B2

Streaming video peripheral retinal breaks and detachment is a video presentation of retinal breaks and detachment. PVD discussion will describe the formation of a PVD and the role it plays in causing retinal breaks and detachments. PVD videos will show the dynamic movement of this condition e.g., a PVD annulus will be seen to move upon eye movements. The retinal breaks are seen with and without scleral depression in order to enhance the clinician's diagnostic acumen. Scleral depression also allows the clinician to better understand the physiologic processes underlying the formation of these retinal breaks. An operculum of an operculated tear will be seen in motion, a retinal flap tear will be seen to open up under scleral depression, and retinal detachments will undulate upon eye movements. Also, video B scan ultrasonography will be presented to show the movement of the vitreous in PVD and vitreous attachments to operculated and flap tears. The most important aspect of the presentation is allowing the clinician to appreciate the dynamic movement of the detached vitreous and actual application of scleral depression to aid in the diagnosis of retinal breaks.

12:15 p.m. – 1:20 p.m.
Lunch for Doctors
Ballroom A1A2

1:20 p.m. – 3:00 p.m.
"Trauma of the Posterior Segment"
William Jones, O.D.
2 hours PS
COPE: 39055-PS (pending)
Meeting Room B1B2

The course will cover various traumatic insults to the posterior segment, including diagnosis and treatment. The lecture starts with the lens and ends with the bony orbit. The topics include: dislocation and cataracts of the lens, vitreous prolapse in the AC, vitreous hemorrhage, commotio retinae, and retinal tears.

2016 WOA CE Events

April 13-14 — Spring Seminar
14 hours CE
Hyatt Regency, Green Bay

Sept 22-25 — Convention and Annual Meeting
22 hours CE
Marriott Madison West

Oct 6-8 — Northwoods Education Event
8 hours CE
Eagle Waters Resort

Nov 11-12 — Primary Care Symposium
15 hours CE
Kalahari Resort, WI Dells

Registration Information—Things You Need To Know

- **The deadline for early bird registration is March 14, 2016.** After that date, rates will go up by $25.00.

- **The deadline for regular registration is April 4, 2016. No registrations will be allowed on-site.**

- All courses will be filled on a first-come, first-served basis. Only completed registration forms with payment for the seminar included will be accepted.

- Incomplete forms will delay processing. Please make sure you have provided all necessary information, and type or print clearly on the form.

- Payment must be included with registration form!

- There are two registration forms:

  1. **Full Registration: A discounted package including all meals and all education classes on either one or both days of the event. You must select which classes and meals you plan on attending. You can sign up for full registration even if you aren't taking all the classes/meals, if it is cheaper than doing partial registration for the events you are attending.**
  2. **Partial Registration: You choose classes and meals individually and pay on a per class basis.**

The registration form is printed on both sides; one side is "Full Registration" and the other is "Partial Registration." Please complete only one side of the form!

- You must check each class and meal you plan on attending, whether you choose "Full Registration" or "Partial Registration." **You will only receive tickets for classes and meals that are marked**.

- Confirmation notices will be sent at least two weeks prior to the seminar to all doctors who register before that date. All classes, meals, and other functions require either a ticket or name badge for admittance.

Refunds

- Doctors who pre-register and find out they are unable to attend may obtain a refund (less a $25 administrative fee), if their written notice of cancellation is received in the WOA office either by email, fax, or standard mail by April 4, 2016.

- All refund checks will be mailed after the conference.

Please return to: WOA
6510 Grand Teton Plaza, Suite 312
Madison, WI 53719
Fax: 608-824-2205
